

# SEC<sup>3</sup>URE PASSPORT

## Facility Visits

### Facilities: Facility Visits

For when you need a reminder of where you've been, SEC<sup>3</sup>URE keeps track of the facilities you've visited in the past.

Just select the date range and then **Show Visits**.

*Here's a key tip:* Click anywhere at the top of the column header to sort the information ascending or descending. This is especially handy to sort by date so you can determine which facilities you haven't visited in a long time.

### Actions: Visit Details

Why were you onsite? Who did you see? How long were you there? SEC<sup>3</sup>URE remembers the details so you don't have to. Select the link to view a specific facility visit.
