Upload your professional photo

Save an appropriate (professional) passport-style photo of yourself. This image is used to print badges and identify yourself when visiting facilities.

Complete your personal information

Stay current and notified with SEC³URE membership; keep your personal contact information complete and up-to-date. Make sure your mobile device is listed to take full advantage of all the SEC³URE benefits and features.

Update your company contact

Did you change companies? No problem. Changing companies does not mean creating a new account. Your SEC³URE Passport membership (*and your trusted reputation*) remains with you.

Update your SEC³URE password

Change your SEC³URE password at any time. Just follow the instructions on the page. Forget your SEC³URE password? (*You're not alone, we forget all the time!*) From the SEC³URE login page, just select **Forgot your password?** and reset the password.

Here's a key tip: If you ever forget your SEC³URE password, we will ask for your first & last name and then the primary email listed on your membership.
