

# SEC<sup>3</sup>URE HOST ADMIN | Release Notes – 3/29/2017

Intellcentrics is proud to officially release our latest version of SEC3URE for Host Administrators. This version is automatically available upon Facility Host Administrator login. This latest release addresses intermittent bugs, adds reporting features, and a new email template communicating facility Radiation Safety.

## Features included in this release:

- New Vendor / Rep Roster Report hybrid  
Developed a new hybrid “SEC<sup>3</sup>URE” version taking full advantage of search, sort, and actions that can be performed on selected HCIRs / Reps.  
*Located under:* REPtools > New Rep Roster Report
- Updated Credential Matrix (Report)  
Improved the design and layout for readability and ease of use.  
*Located under:* REPtools > Credential Matrix
- New Radiation Safety facility email template  
Added a new Radiation Safety email template to inform their HCIR / Rep populations when implementing Radiation Safety requirements  
*Located under:* REPtools > [any report] > Perform Action > Send Message via Email

## System Requirements for SEC<sup>3</sup>URE:

- Microsoft Windows 7 or above
- Internet connection using the latest browser versions of: [Microsoft IE 11](#) | [Microsoft Edge](#) | [Google Chrome](#) | [Mozilla Firefox](#)
- Latest version of Adobe Acrobat Reader: [www.adobe.com](http://www.adobe.com)
