

SEC³URE Mobile App for HCIR | Release Notes – 12/11/2017

Intellcentrics officially released our latest version of the SEC³URE Companion Mobile App for HCIRs [1.3.139]. **HCIRs must update the SEC³URE App on their mobile device (Apple & Android) to see these latest improvements.** There will also be a reminder message the next time HCIRs log into their mobile app.

This latest release addresses minor bugs for both Apple iOS and Android and now allows HCIRs to review and accept facility Policies as well as upload and submit required credential documents through their mobile devices before they even expire. Registration and commerce functions have also been removed (*HCIRs / Reps should instead visit www.SEC3URE.com to register and order additional services*).

Features included in this release:

- Review/Accept/Decline current but expiring Policies.
In this update, HCIRs / Reps may now review and then either accept or decline facility policies before expiration. There is also an option to *Send Policy for Review*.
Available under Policies
- Upload and Submit “Current” Credential documents.
HCIRs / Reps with Premium subscriptions may now submit credential documents for review before the requirement expires.
Available under Credentials
- View Credential Submission history.
HCIRs / Reps may now review submission histories after submitting credential requirement proof documents.
Available under Submission History

System Requirements for SEC³URE Mobile App:

- Apple iOS 8.0 or later | Compatible with iPhone, iPad, and iPod Touch
- Android 4.0 and up

- SEC³URE Community Alerts.
These popup messages inform how many SEC³URE” HCIRs / Vendor Reps from the same company are currently checked into the facility.
Displays upon check-in
- View Credential Descriptions and Details.
HCIRs / Reps may now review credential documents and other details.
Available under Credentials > [Credential] > Details
- New and improved FAQs.
We’ve revised our FAQs to reflect SEC³URE Companion Mobile App enhancements and branding.
Available under Support > FAQs

These feature improvements were all suggestions submitted by the HCIR / Rep community!
